

From BEAN to CUP

Create barista quality coffee at home using your favourite fresh coffee beans. Every step your barista takes is replicated inside a De'Longhi Fully Automatic coffee machine.

ESPRESSO with One Touch

Deliver perfect coffee shop coffees at the touch of a button, extracting espresso with a strong crema every time, make longer americanos or froth milk manually for a real barista experience.

CAPPUCCINO with One Touch

Deliver perfect coffee shop coffees at the touch of a button, frothing or steaming milk automatically to create cappuccino, caffè lattes, flat whites and more.

Unlimited PERSONALIZATION

With up to 6 user profiles and up to 10 pre-programmed beverages, De'Longhi Fully Automatic coffee machines place coffee personalisation in the palm of your hand.

LatteCrema SYSTEM

The De'Longhi LatteCrema System mixes steam, air and milk in the correct proportions to always deliver best in class foam for all of your favourite coffee based beverages.

The secret behind perfect milk foam De'Longhi's engineers have perfected the method of skilfully mixing air, milk and steam with absolute accuracy to create the ultimate soft but compact milk froth, just like a professional Barista! The desired level of foam can be selected thanks to the regulator dial.

From hot to frothed milk The dedicated steaming system works independently from the coffee preparation process to quickly generate steam for either a silky, smooth hot milk or a velvety soft milk foam. The high-precision electronic control always ensures the necessary quantity of steam is generated at the optimal temperature to create the perfect in-cup results.

INTEGRATED THERMAL MILK CARAFE with Automatic Cleaning

With the integrated thermal milk carafe milk never enters inside the machine which prevents bacterial formation. Automatic cleaning allows easy cleaning of the whole milk carafe system – so the milk carafe can be placed in the fridge after use.

ECAM 650.85.MS/PrimaDonna Elite

- Metal body
